

Knowledge in a Digital World: Day 1

Morgan McCarty

07 September 2023

- Digital Technology: technology that operates on digital data
- Example of a piece of knowledge you would not have acquired without technology:
Trail maps w.r.t exact locations or exact locations when no other basis exists
- Testimonial Knowledge: knowledge gained from others' (experiences, word-of-mouth, etc.)
- Knowledge: Precision and Well-Justification
 - Precision: how much detail is included (or the level of detail)
 - Well-Justification: how well the knowledge is supported
- Propositional Knowledge: knowledge that can be expressed as a proposition (statement)
e.g. "The sky is blue".
- Procedural Knowledge: knowledge that can be expressed as a procedure (algorithm)
e.g. "How to tie your shoes".
