Knowledge in a Digital World: Day 2

Morgan McCarty

11 September 2023

- Philosophical Argumentation
  - Questions
    * Can machines think?
    * What is a machine?
    * What is thinking?
  - Interesting Connections
    * What is the historical context of Extrasensory Perception and why did Turing believe it was necessary to address it?
  - Types of Arguments
    * Deductive: if the inference is sound and the premises are true, then the conclusion is definitely true
    * Inductive: if the inference is correct and the premises are true, then the conclusion is *probably* true
